

Ref. No. APGCU/2025-26/RDCC

DATE: 06.09.2025

RESEARCH AND DEVELOPMENT CELL

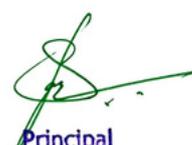

The Research and Development Cell (RDC) is a pivotal unit within the college, dedicated to promoting research activities, fostering development. The RDC aims to enhance the institution's research capabilities, support faculty and student research, and facilitate industry collaboration through consultancy services.

OBJECTIVES OF THE CELL

- **Promote Research Activities:** Encourage and support faculty and student research through resources, funding, and project guidance.
- **Manage Grants and Funding:** Assist in securing, managing, and utilizing research grants and funding opportunities from external sources.
- **Foster Collaborations:** Develop partnerships with other institutions, industries, and research organizations to enhance research capabilities and outcomes.
- **Support Publication and Dissemination:** Aid in the publication of research findings and promote their dissemination through academic journals, conferences, and other channels.

1.	Dr. P. S. Subha Pradha	Professor	Coordinator
2.	Dr. A. Jyothi	Assoc. Professor	Member
3	Mrs. M. Sandhya Rani	Assistant Professor	Member
4	Ms.K.Sowmya	Assistant Professor	Member
5	Ms. Narmadha	Assistant Professor	Member
6	Mr. Sanjay Ghosh	Assistant Professor	Member
7	Ms.O.Shalini	Assistant Professor	Member
8	G. Niharika	Assistant Professor	Member

 Principal
 Aurora's PG College (MCA)
 Uppal, Hyderabad-500092

RESPONSIBILITIES OF THE CELL

- Facilitate and promote research activities by providing resources, guidance, and support for faculty and student research projects.
- Assist in the preparation and submission of research grant proposals, and manage the administration of awarded grants.
- Foster collaborations with other institutions, research organizations, and industry partners to enhance research opportunities and outcomes.
- Support the development of new research projects, including idea generation, proposal writing, and project management.
- Organize workshops and training programs on research methodologies, grant writing, and practices to build capacity and skills.
- Facilitate the dissemination of research findings through publications, conferences, and seminars, enhancing the visibility and impact of the research conducted.

The Research and Development Cell plays a crucial role in advancing the research agenda and placement capabilities of the college. By promoting research activities, supporting grant management, and facilitating industry collaborations, the RDC contributes to the institution's growth and impact. Its efforts drive academic and practical advancements, fostering a vibrant research culture and expanding consultancy services that benefit both the college and external partners.
